Our Mission

We enrich lives while having fun!

Our Vision

To be a national leader in providing memorable parks and recreation experiences to our community.

To the Elmhurst Community,

We all have our favorite summer traditions that we look forward to each year. Perhaps some include Park District events like **Movies in the Park** or **Park Palooza**. However, as the Park District wraps up several capital projects this spring, we hope you might add a couple more traditions to your list!

Construction work at **Centennial Park** will be completed this spring, and I invite you to spend some time there this summer! With a geyser fountain and modern picnic shelter, it will be the perfect place for lunch on a warm, sunny day.

Taking a walk downtown? Stop by **Glos Memorial Park**, where work on the expansion of the park will also be completed this spring. The expanded park will provide a tranquil place to stop for a rest, with serene landscape design features, including a pergola, vine covered walking tunnel and butterfly gardens.

Both of these projects will add year-round recreation opportunities to Elmhurst. A third major capital project being completed this year is **Centennial Recreation Center (CRC)**. As the future home of adult programming, the CRC will help the Park District expand adult

programming and meet the needs of seniors in our community. Learn more about all of these projects at epd.org.

As summer approaches, don't forget to pick up your **Pool Passes!** The **pre-season** rate will end **May 27**. Staff looks forward to bringing back many of its traditions this year, including family friendly events like **Wacky Wednesdays**.

Enjoy exploring the parks and pools this summer, and be sure to check out some of our new offerings! On behalf of my fellow commissioners, it is our privilege to serve you in every season.

Located in the southwest corner of Wilder Park, the Wilder Park Conservatory is home to a wide variety of plants. In addition, youth education programs are offered with our in-house horticulturist. For 83 years the Conservatory has served as a visual and verifiable link to our past, taking on an iconic and symbolic place in the history of Elmhurst and the hearts and minds of its residents.

The Conservatory logs approximately 13,000 visits annually and is a memorable place for the marking of life events such as weddings, proms, graduations, and holidays. Built in 1923, the Wilder Park Conservatory was the very first Elmhurst Park District capital project and serves as a symbol of the longtime commitment of the community to horticultural programs.

Wilder Park Conservatory is an ideal place to capture the magic of your special day or take memorable family photos. Please take into consideration our Photography Etiquette information when taking photos.

Chocolate Bridges of Hope, A Kids Life Coaching

Ages 6-13

Why is hope so important to happiness? Having hope is that "bridge" until we get to the other side. Sometimes we must do some things (strategies) to get to the other side. Smashing negative thoughts, knowing our strengths, using humor, having emotional self-control, and using a growth mindset are just some of the strategies we will learn. Applying these strategies and envisioning a better outcome can be very motivating for kids in a tough present scenario. To dramatize the concept of hope, we will engineer a Hershey's chocolate decked out candy bridge while we learn about the world's most decadent bridges. Kids may take their edible creation home or eat on the spot! This workshop truly is the perfect blend of S.T.E.M. meets life coaching!

The Elmhurst Park District recognizes that children's experiences in the early years of life influence how they develop, learn, and interact with the world. Early childhood is marked by tremendous growth and sets the foundation for children's future learning and ongoing development. The Park District offers a series of early childhood programs designed specifically for infants/toddlers thru age five that allow children to progress from taking a class with a parent or caregiver to taking classes independently. Our instructors are CPR/AED certified and have a background in early childhood education.

Welcome to the Elmhurst Park District Swim School! We offer a variety of swim lessons for ages 6 months to adult. We also offer private swim lessons for ages 3 and older.

Early childhood and youth lessons follow the Starfish Swim/Stroke School program, a nationally recognized swim instruction curriculum developed by the Starfish Aquatics Institute. The Starfish Swimming curriculum combines both swimming and water safety skill development to help participants advance their swimming skills. Benchmarks are established at each stage of the program to teach swimming and safety skills. Register your child for the program that corresponds with their age.

Starbabies™
6-23 months with adult

Startots™
24-36 months with adult

Starfish Swim School® for Preschoolers
3-5 years

Starfish Swim School® for Youth
6-12 years

Stroke School®
For students ages 6-12 who have achieved the Green Swim School stage (can tread water for at least 30 seconds & swim freestyle with good form and side breathing for at least 30 feet)

Advanced Stroke School
For students ages 6-12 who are able to swim at least 25 yards (1 length of the pool) with good form freestyle, backstroke, breaststroke and butterfly.

All participants will be tested on the first day to determine which stage they should begin in. Stages within Swim/Stroke School are based on skill level, not age. Participants will advance to the next stage once they complete the benchmark skills; they may advance through more than one stage in one session.

Swim Lesson Information

Instructors will meet their students in the concession area every day of class and walk to their designated area of the pool. Parents/guardians are asked to remain in the concession area to ensure your child is focused and engaged in class. Parents/guardians are invited on the pool deck for Showoff Day on the second Wednesday of each session to observe what your child has learned!

Cancellation and Make-up Lesson Policies

Lessons are only canceled due to severe weather, or if the air temperature drops below 65 degrees. If the weather is questionable, please visit the rainout hot line no sooner than 1 hour before the scheduled start time to determine the status of lessons. Make-up lessons will be held on Fridays as needed, and will only be held if the park district cancels the lesson. No make-ups will be issued for sickness or vacations. If more than two lessons are canceled in a session, a credit will be applied to your Elmhurst Park District account.

The Elmhurst Park District is committed to providing safe aquatic facilities and programs and holds safety of participants in high regard. The Park District continually strives to reduce such risks and insists that all participants follow safety rules and instructions that are designed to protect the participants' safety. However, participants and parents/guardians of minors engaged in aquatic activities must recognize that there is an inherent risk of injury.

You are solely responsible for determining if you or your minor child/ward are physically fit and/or adequately skilled for the activities associated with this Pool Pass. It is always advisable, especially if the participant is pregnant, disabled in any way or recently suffered an illness, injury or impairment, to consult a physician before undertaking any physical/aquatic activity.

Warning of Risk

Swimming and other aquatic activities challenge and engage the physical, mental and emotional resources of each participant. However, despite careful and proper preparation, instruction, medical advice, conditioning and equipment, there is still a risk of serious injury, including but not limited to drowning, head/brain injury, and cervical spine injury. Understandably, not all hazards and dangers can be foreseen. The very nature of swimming and aquatic activities are hazardous and risky, including but not limited to fatigue and overexertion, poor swimming skills, failing to avoid dangerous areas, failure of lifeguards to locate victims and/or delay in emergency response time, horseplay, diving or cannon-balling into shallow water and striking the bottom or side of the pool or water slide, poor supervision or instruction, lack of conditioning, becoming disoriented, striking other swimmers, defective or inadequate equipment, striking one's head on the bottom when using a diving block, slipping or falling on the deck or within the locker facility, chemical exposure and all other circumstances inherent to aquatic activities and aquatic facilities. In this regard, it must be recognized that it is impossible for the Park District to guarantee absolute safety.

Houses of Tomorrow: Solar Homes from Keck to Today Until May 29, 2022

Houses of Tomorrow follows the evolution of the innovative work of “the first solar architect” George Fred Keck, through his early energy efficient homes in Chicagoland that featured technologies pioneering the sustainable practices of today. Accompanying the exhibition is a special commission by artist Jan Tichy interpreting the solar advances first used by Keck. Keck’s innovative work began at the 1933 Chicago World’s Fair with his groundbreaking House of Tomorrow, the first glass house in America. The sustainable Mid-Century homes by Keck and his brother throughout the Midwest, and the lessons taught through their energy efficient practices, are currently more relevant than ever.

This exhibition is generously supported by DuPage Foundation, Graham Foundation, Artis, Chicago Bauhaus and Beyond, Room & Board, and Kelly Stetler | Compass.

Jan Tichy: Reflectance Until May 29, 2022

This multimedia exhibition celebrates Chicagoland’s innovative solar homes starting with George Fred Keck’s vision for the future built for the 1933 Chicago World’s Fair. The show is accompanied by enriching weekend talks, tours, and STEAM workshops for children.

This exhibition is generously supported by DuPage Foundation and Artis.

Young Masters K-8 Art Exhibition April 29 - May 1, 2022

This pop-up exhibition will feature over 300 works by local students from District 205, highlighting selected pieces from 11 area schools. Artists from both elementary and middle schools will showcase their work from the 2021-2022 school year.

Diversity of Thought May 6 - 15, 2022

This program provides young artists with a safe environment to create, perform, document, and present their stories in order to address public health and social justice issues, promote change, and unify communities.

Nature’s Blueprints: Biomimicry in Art and Design June 17 - August 14, 2022

“Nature’s Blueprints” is a family-friendly show featuring interactive learning stations that explore ways we can be inspired by nature’s incredibly resourceful designs. Families will enjoy hands-on stations about natural emulation in art and design such as: how burrs from a forest informed velcro, the shape of a beetle’s teeth helped an inventor create a more efficient chainsaw, bird and bat wing shapes aided the early flight tests, spiderwebs have inspired suspension bridges, and more. Visit this show or attend one of our weekend STEAM workshops to discover how art, design, and environmental science can lead to extraordinary inventions that improve our lives.

A program of ExhibitsUSA, a national division of Mid-America Arts Alliance and the National Endowment for the Arts.

A person wearing a pink long-sleeved shirt and blue jeans is painting a vibrant floral artwork on a canvas mounted on a wooden easel. High School Golf Team - Prep School

This popular program is geared toward preparing players for their high school golf teams. The District and Regional tournaments are 18-hole competitions with the State Finals being a 36-hole event. Classes will be held in the following format for Freshman, Sophomore and Junior Boys & Girls:

- Six group clinics (driving range and short game stations) - 1 1/2 total hours each week

Junior Development Pathway Program

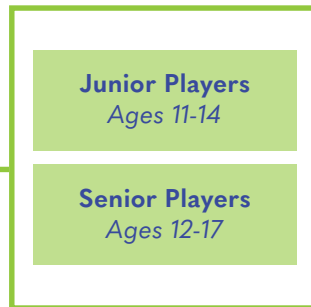

10 and Under Programs

Academy Programs

Development Programs

Our junior program is the cornerstone of all tennis programming at Courts Plus. Players of all ages develop through the various stages of learning by following our Junior Development Pathway.

The Pathway begins with our **10 and Under Programs** (Mighty Mites, Little Athletes, Big Athletes, and Future Stars). These programs use a curriculum based on the highly successful USTA and ITF 10 and Under program, utilizing appropriate court size and equipment while allowing players to develop through the stages at their own pace.

When children have completed the 10 and Under Program or are new to tennis, they move to the Courts Plus **Development Program** and progress at their own pace through the Junior and Senior age levels, with the goal of moving into the **Academy Program** and/or High School Tennis. The **Academy Program** is the pathway for the more serious player who has made a commitment to tennis, competing in tournaments and wants to play on Varsity tennis teams. The **Academy Programs** includes programming at both the junior and senior level.

For players who aspire to play at the top level of competition after the culmination of the Courts Plus Junior Development Program, we offer the **Academy High School and Tournament groups**.
