Elmhurst Park District History: The Elmhurst Park District was established on June 5, 1920 to meet the leisure and recreational needs of the community. Soon thereafter, negotiations were opened for the acquisition of the Wilder estate. The estate consisted of an undeveloped cow pasture to the north and the family home, gardens and clay tennis courts to the south. Original development of the gardens had begun much earlier in 1868 by Seth and Elizabeth Wadhams, who built their home, known as White Birch, along with a greenhouse and gardens. They planted numerous trees representing a variety of species to create a true garden spot in Elmhurst. The Park District acquisition of the Wilder property occurred in 1921, making it the first public park in Elmhurst. The Park District added the conservatory to the greenhouse in 1924, and the Wilder Park Conservatory then opened to the public.

In the late 1920s and early 1930s, three new parks were established at Salt Creek, East End and Butterfield. The original East End Pool opened on June 26, 1937 with a “Grand Splash” of 750 youths who had lined up along the edge of the pool in readiness for its big moment. The pool was an immediate success for the District, with 1,200 people showing up on its second day. The first recreation programs were offered for children in 1942 and included baton, handicrafts, archery, baseball and ballet. The early 1950s saw additional growth for the District as the Ben Allison Playground and Eldridge Park were opened. The Abbey was also established during this period as a place for teenagers to gather, but did not become part of the Park District until 1964. During the decade of the 1960s, seven new parks were opened, including the York Commons Pool which was dedicated in 1967.

Perhaps the most significant decade in the Park District’s history was the 1970s, when the District blossomed into a full-service agency. In 1971, voters approved a \$3.9 million bond referendum for land acquisition and development. The majority of the District’s present land was purchased during this time, along with new park development. Five new special facilities were also opened during this period. The Courts, an indoor tennis,

racquetball and handball facility, opened in 1972. Sugar Creek Golf Course was the result of collaboration in the early 1970s between the Elmhurst Park District and the Village of Villa Park who shared in the land acquisition and construction costs. The first Elmhurst Community Center opened its doors in 1979 at Eldridge School, leased from the School District. The Abbey Leisure Center opened its doors on St. Charles Road for senior citizen leisure programming in 1975 in recognition of this growing segment of the community's population. The Depot on York Road was acquired from the Chicago and Northwestern Railroad in 1971 and renovated by the Park District as a bicentennial project in 1975.

The 1980s and 1990s constituted a period of redevelopment and continued partnerships with other agencies. The Courts Plus expansion in 1990 provided an important collaboration with Elmhurst Memorial Health Care to provide fitness, rehabilitation, and health programs for the community. In 1992, the District won the coveted National Gold Medal Award presented to outstanding park and recreation agencies.

On September 6, 2003, the Elmhurst Park District opened the Joanne B. Wagner Community Center. This facility filled a great need for the community by providing a venue for indoor programming that is owned by the District. The redevelopment and opening of Berens Park and The Hub in 2004 came just in time for the District's 85th anniversary. In 2003, the new Elmhurst Public Library opened at the north end of Wilder Park following a land exchange agreement with the District and the City of Elmhurst and in 2007, the District received the keys to Wilder Mansion from the City (former Library), making its ownership official. The original 1860 home was remodeled without compromising the historic architectural features and provides an additional 14,000 square feet of multi-use space for the community.

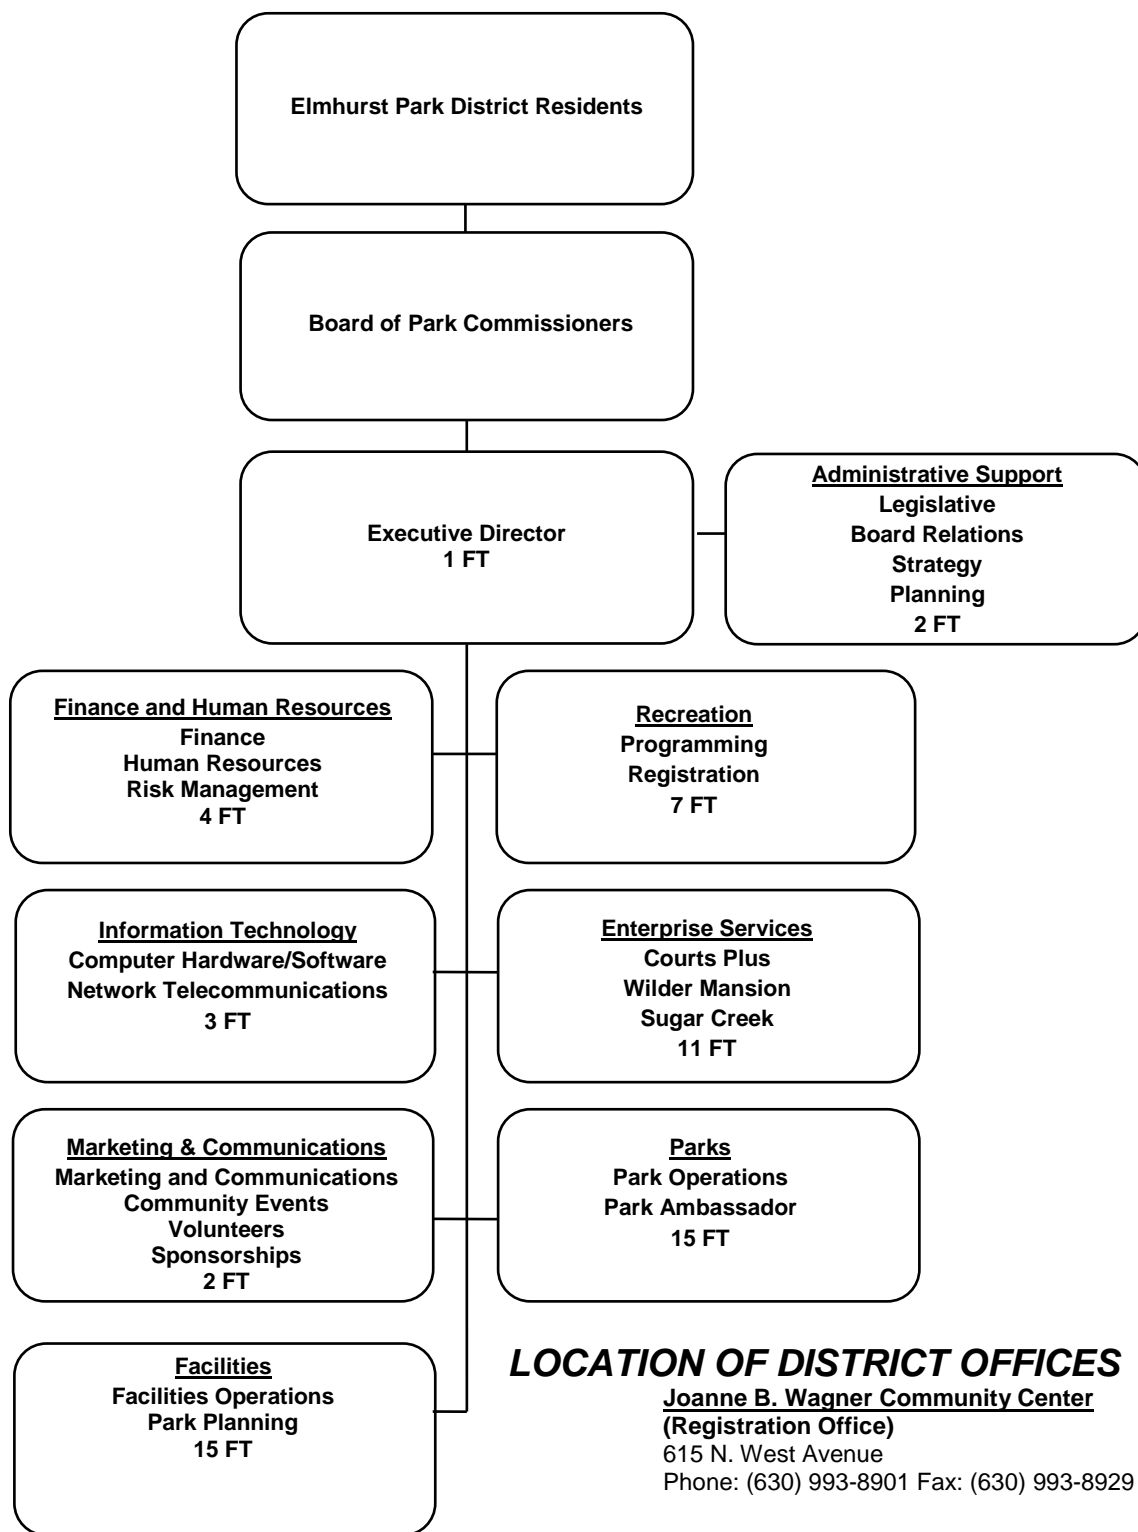

In 2019 the District acquired 2.92 acres of property at 155 E. St. Charles Road to develop a park in a neighborhood which was identified as deficient in park space. The property also included the 11,800 square foot former Redeemer Center building, proposed for use as a future Adult Center. In 2020 the District observed its 100th anniversary and while the year was much less celebratory than had been planned due to the COVID-19 pandemic, it was noteworthy that in July, the Park Board dedicated the property at 155 E. St. Charles Road as Centennial Park, the first new park in Elmhurst in more than three decades with the name having been chosen to commemorate the 100th anniversary.

Overview of the City of Elmhurst: Elmhurst is a community that is rich in culture and history, dating back to its settlement in the 1840s. While the suburbanization of Chicago encompassed Elmhurst and many other regional communities, Elmhurst clearly developed as a community with its own distinct heritage and image, casting aside its suburban label. Celebrating its 133rd year, Elmhurst is a highly livable and sustainable community that has its own symphony orchestra, art museum, historical museum and various other cultural offerings that appeal to residents and visitors alike. Located approximately 16 miles west of the Chicago Loop, Elmhurst is easily accessible via highway and rail. Interstates 294 and 290 intersect on the City's east side, providing both north-south and east-west access that links with the City of Chicago to the east and O'Hare Airport 12 miles north. The community is served by commuter rail on Metra's Union Pacific West Line, with a station stop in the heart of Downtown Elmhurst. The City of Elmhurst has a healthy business and industry base, with numerous retail business areas outside the downtown area. The City is also home to three industrial parks located in the perimeter areas of the community.

Elmhurst has already realized the growth pressures of the past several decades and is in a period of very slow growth that is fueled largely by redevelopment. In the past two decades, numerous older homes and commercial buildings have been demolished to make way for new larger homes or townhouse/condominium developments. According to the Chicago Metropolitan Agency on Planning, the population of Elmhurst is projected to grow to 43,075 by the year 2030, an increase of less than one percent. The 2010 Census illustrates that this number has already been surpassed with 44,121 as the City of Elmhurst population.

Elmhurst offers its residents the conveniences and amenities that come with having access to one of the largest major metropolitan areas in the country, while providing its own services, character and amenities that provide a high quality of life for residents.
