

Elmhurst Park District

COMMITMENT TO THE ENVIRONMENT

STATEMENT OF PURPOSE:

The Elmhurst Park District is dedicated to the health and safety of its employees, customers, community and environment. It is the intent of the District to assume a leadership role in the development and use of sound environmental policies, practices, and opportunities. Our commitment to the prevention of pollution as well as compliance with relevant environmental regulations and other requirements also extends to contractors who perform work for the District.

- Contractors must comply with relevant environmental legislation and regulations or face the consequences of noncompliance.
- Contractors shall properly label, store, and legally dispose of all waste materials generated from their activities.
- Contractors must be sensitive to the effects of noise, odor, light, dust emissions, and traffic movement to the facility and the surrounding community.
- Contractors, whenever feasible, shall conserve the natural environment by purchasing “green” and sustainable materials, fuel, or construction supplies to be used on the project.
- Contractors shall ensure protection of the natural environment surrounding the work area.

The Elmhurst Park District is committed to environmental responsibility and welcomes the opportunity to work with suppliers and business partners who have statements of sustainability.
